

Turo — TRT6030RC

The bezels of vintage dive watches inspired Turo's slim fluted leg profile, that in turn have been crafted with the same precision. The icosagon shaping of the leg adds a subtle focal point without disrupting the simplicity of its silhouette. Available as square, rectangular and round tables in varying sizes, the desire was to create a simple yet stylish table for everyday use in every type of environment.

An icosagon is a shape with 20 sides and 20 corners

Design by Allermuir
